2019 Farmers Market

The Shrewsbury Farmers Market season kicks off on June 12th!

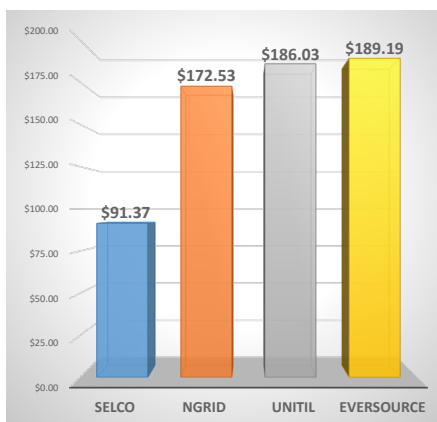

The market is open from 2:30 to 6:30 pm each Wednesday throughout the summer.

The Shrewsbury Farmers Market is located at the Shrewsbury Senior Center parking lot on Maple Ave.

750kWh of Electricity

Cost as of June 1, 2019

What Public Power Means to Shrewsbury

Did you know 41 Massachusetts public power utilities serve more than 400,000 homes and businesses? Public power means local control. SELCO's light commission is appointed at the local level to serve community interests. That means customers get a higher standard of service and accountability.

Local crews and equipment often result in faster restoration times during outages. According to the American Public Power Association, "public power customers get electricity back after an outage 74 minutes sooner than non-public-power users."

Because public power utilities are accountable to their communities, they focus on providing the best service at a fair price. That means lower rates and higher customer satisfaction.

As a whole, Massachusetts public power utilities get a significantly higher portion of their electricity from carbon-free sources than other utilities. Balancing environmental stewardship with fiscal responsibility is important to our customers. That's why SELCO invests in carbon-free and renewable resources.

Because we are community owned, we are community focused. We support local events and organizations like Spirit of Shrewsbury and Outdoor Movie Night. Our commitment to serving the town of Shrewsbury can also be seen in our recent work with local school children (see p.2).

For more than 110 years, SELCO has served community interests as a community-owned, not-for-profit utility. We are proud to be YOUR public power utility. Learn more about public power from the American Public Power Association at www.WeAreCommunityPowered.com

Energy Conservation Television Ads

Each spring, SELCO works with Floral Street School third grade students and Coolidge School fourth grade students to produce energy and water conservation public service announcements.

These ads will run on TV throughout the summer months on CNN, HGTV, and Nickelodeon. Thank you to the students and teachers at Floral and Coolidge!

SELCO NESN Scholarship 2019

Shrewsbury Electric and Cable Operations (SELCO) Commission is proud to announce this year's winners of the SELCO and New England Sports Network Scholarships: Ms. Nicole Erickson, Ms. Mackenzie Farrell, and Mr. Maehir Sharma.

These individuals were selected for their outstanding accomplishments including their community service, volunteer work, extracurricular activity, and academic achievement throughout four years of high school.

SELCO Annual Open House

Shrewsbury Public School fourth graders and students from St. Mary School, Al Hamara Academy, and Shrewsbury Montessori School attended the annual SELCO Open House field trip on May 10th. We taught more than 500 students about electric generation, transmission, distribution, conservation, and safety.

Students also learned about cable operations and enjoyed a visit with Shrewsbury Media Connection. Thank you to all SELCO employees for making this such a memorable experience!
