

2018 Farmers Market

The market is now open from 2:30 to 6:30 pm each Wednesday throughout the summer.

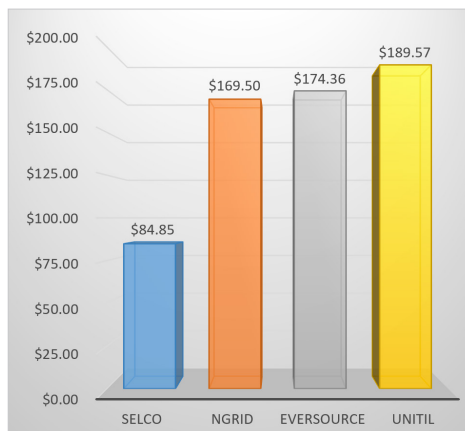

SELCO will be hosting a booth at the market on August 15th. Be sure to stop by for a fun kids craft and to learn more about our community solar and electric vehicle programs!

The Shrewsbury Farmers Market is located at the Shrewsbury Senior Center parking lot at 98 Maple Ave.

750kWh of Electricity

Cost as of August 1, 2018

Coming and Going

SELCO Retirements

Manager of Electric Operations, **Norman Ludovico** retired on June 15, 2018. Norman began his career with the Town of Shrewsbury in 1971, working first in the water department until 1973, then transferring to the Electric Department. Norman has held several positions within SELCO over the years, working first as a Lineman and then as Foreman. He was promoted to Manager of Electric Operations in 2008, where he has served for the last decade. Norman logged 45 years with the Electric Department and 47 years total with the Town. His decades of experience and dedication have helped shape our organization.

Field Engineer **Mark Maciejewski** is retiring from SELCO on August 18, 2018 after 40 years with the organization. Mark began his career as a Junior Electrical Engineer in 1978 and has served as Field Engineer since 1984. Mark's attention to detail and his engineering know-how are major contributors to SELCO's reliability.

SELCO Promotions

Congratulations to **John Lavery**, SELCO's new Manager of Electric Operations. John stepped into his new role following the retirement of long-time Manager of Electric Operations, Norman Ludovico. John began his career at SELCO in 2007 as Substation Maintenance & Inspection Technician. He was appointed Substation Foreman in 2010, and will be an excellent member of the SELCO management team in his new role as Manager of Electric Operations. John has also served as Wiring Inspector since 2007.

SELCO is proud to announce the promotion of **Jonatan Malaver** to Senior Engineer. Jon has served as Assistant Engineer since 2011. As Senior Engineer, he will also oversee the day-to-day operations of metering and substations. Jon brings a strong engineering background to his new position and will help to ensure continued reliability of SELCO's electric systems as we move forward into the future.

SELCO Sponsors FREE Outdoor Movie Night

Join us at Dean Park on August 22nd at 8 PM for an outdoor showing of Despicable Me 3! Come by early at 7:15 to meet Trax, the Worcester Railers mascot and to take part in our minion-themed photo booth!

Sign up for SELCO Community Solar

Go solar! SELCO's community shared solar program provides SELCO customers the opportunity to get clean energy to their home without having to invest in their own solar panels. Community solar is a great solution for customers who rent their properties or for homeowners whose rooftops do not receive ample sunlight or who cannot afford to install solar.

How Community Shared Solar Works

Through virtual net-metering, community solar allows multiple customers to receive their energy needs from one solar array. SELCO customers will be able to subscribe to our community shared solar project at the same residential electric rate they are already paying. This means participants will see absolutely no up-charge!

Participant Information and Requirements

A maximum of 300 residential customers will be able to participate in this program. Participants will be selected by random lottery in September (see below). To be eligible you must be a residential electric customer on the R-1 rate and cannot have net metered solar installed on your home.

Application and Selection Process

Applications will be accepted online, through the mail, or in the office at 100 Maple Ave from Aug. 1st through Sept. 15th. A random lottery drawing will be held after Sept. 15th to select the 300 participants as well as an additional 25 participants who will be placed on a waiting list if there is excess demand. SELCO will notify selected customers of their status.

To apply, please detach the below application form to submit to SELCO via mail or office drop-off **or** apply online at the following URL: SELCO.ShrewsburyMA.gov/CommunitySolar

SELCO COMMUNITY SOLAR APPLICATION FORM*

First Name (required) _____ **Last Name (required)** _____

Service Address (required) _____

Phone Number (required) _____ **Customer Number (required)** _____

Email (optional) _____

By submitting this form I am entering the lottery to enroll in the SELCO Community Solar I project. I understand that if my name is selected, I will automatically be enrolled to receive up to 10,000 kWh per year of power from the SELCO Community Solar I project. This power will be delivered at the regular residential electricity rate and there will be no additional fees for participation. However, an indication that I am receiving power from the SELCO Community Solar I project will appear on my monthly bill. I can opt out of this program at any time by contacting SELCO at 508-841-8500.

*SELCO will **only accept** application forms for entry into the lottery that are **complete and include all required fields**. In addition, any mail-in application forms **must be postmarked during the enrollment window (8/1/18-9/15/18)** to be eligible for the lottery. Mail to: ATTN SELCO Community Solar, 100 Maple Ave Shrewsbury, MA 01545.
